System Expansion

EasyTime: Reader Expansion Controller

This controller allows connection of up to 3 readers to a single EasyTime system and also allows readers to be up to 1.5km away from the EasyTime PC.

Price: £225.00 (excluding VAT)

EasyTime: Multiple/Remote Reader Controller

This controller allows connection of multiple readers to EasyTime, and also allows readers to be some distance from the EasyTime PC. The controller can buffer and time/date stamp more than a thousand card swipes - and can run independently from the EasyTime PC up to 1.5 km.

Price: £350.00 (excluding VAT)

EasyTime: Additional Swipe Reader

An additional mag-stripe swipe reader for use with EasyTime: with confirmation LED and warning buzzer, directional swipe for clocking in and out.

Price: £150.00 (excluding VAT)

EasyTime: Additional Clocking Terminal

Additional clocking terminal with bi-directional mag-stripe reader, LCD display & status LED's

Price: £350.00 (excluding VAT)

Installation Accessories

EasyTime: 5m extension lead

5 metre serial cable with 9-pin D-type female to 9-pin D-type male connectors, for single EasyTime swipe reader or Clocking Terminal.

Price: £15.00 (excluding VAT)

EasyTime: Reader Wall Box

A slimline white plastic wall box with cut-outs for the reader's data connector and screws, that allows the EasyTime Reader to be mounted on a wall. With 3 blanked holes for surface mount trunking to the top and sides, and six cable exit points at the bottom. There are clips inside to make the EasyTime extension cable captive.

There are also options for either internal RJ45 socket complete with a matching socketed DB9 (COM1) connector or a set of 3 RJ45 sockets for the RS485 version. These allow point to point serial connection via CAT5 structured cabling.

N.B. with the standard single reader version connections made with this wall box must be kept within RS232 distance limits. Due to the variation in PC COM port implementations and the local environment no guarantee can be made beyond 8 metres, however EasyTime reader connections with longer distances have been successfully installed.

For the RS485 / Multiple Reader version please remember to order a Wall Box for the Reader included with EasyTime as well as for the additional readers.

Price: £20.00 (Excluding: VAT at 17.5%)

RJ45 Socket with RJ45 socketed DB9 (COM1) connector = £15.00

EasyTime: pair RJ45 socketed DB9 plug & socket

A pair of DB9 connectors to enable the EasyTime reader's data connection to be extended via CAT5 cabling.

Together with optional CAT5 cables.

N.B. connections made must be kept within RS232 distance limits. Due to the variation in PC COM port implementations and the local environment no guarantee can be made beyond 8 metres, however EasyTime reader connections with longer distances have been successfully installed.

Price: £15.00 (Excluding: VAT at 17.5%)

With 5 metre CAT5 cable: + £7.50
 With 10 metre CAT5 cable: + £12.50
 With 15 metre CAT5 cable: + £15.00
